The Future of Air Power in the Aftermath of the Gulf War Robert L. Pfaltzgraff, Richard H. Shultz, 1992 This collection of essays reflects the proceedings of a 1991 conference on The United States Air Force: Aerospace Challenges and Missions in the 1990s, sponsored by the USAF and Tufts University. The 20 contributors comment on the pivotal role of airpower in the war with Iraq and address issues and choices facing the USAF, such as the factors that are reshaping strategies and missions, the future role and structure of airpower as an element of US power projection, and the aerospace industry's views on what the Air Force of the future will set as its acquisition priorities and strategies. The authors agree that aerospace forces will be an essential and formidable tool in US security policies into the next century. The contributors include academics, high-level military leaders, government officials, journalists, and top executives from aerospace and defense contractors.

Retailing Patrick Dunne, Robert F. Lusch, James R. Carver, 2013-01-17 Full-color, completely current, and packed with practical applications, *RETAILING*, 8E, International Edition puts students on the inside track to success in the fast-moving retail industry. *RETAILING*, 8E, International Edition is written by a seasoned author team whose expertise informs every page and whose innovative approach has earned this market-leading text endorsement by the National Retailing Federation. While others may focus on lackluster descriptions of retailers and their most mundane tasks, Dunne, Lusch, and Carver bring retailing to life, covering the latest developments in the field and detailing behind-the-scenes stories in a conversational style enlivened by full-color pictures and illustrations. *RETAILING*, 8E, International Edition emphasizes the impact of technology and the Internet, as well as giving solid coverage to international topics and issues unique to service providers. The text also includes a thorough, integrated study guide with review questions, writing and speaking exercises, cases covering diverse retail operations, a computer spreadsheet case, and more. In addition, Planning Your Own Retail Business exercises focus on problems small business managers and owners face in day-to-day operations, helping students appreciate the financial impact of retail decisions. This engaging, reader-friendly text vividly illustrates how fun, exciting, challenging, and rewarding a career in retailing can be, even while helping students hone their skills and creativity to stay ahead of the competition and navigate an ever-changing economic environment.

Fundamentals of Retail Buying with Merchandising Math Angella L. Hoffman, 2013 For courses in Retail Buying, Merchandising Math, Merchandise Management, Advanced Buying, Strategic Merchandise Planning. Bridging the gap between current merchandising math textbooks and retail buying textbooks, *The Fundamentals of Retail Buying with Merchandising Math* incorporates both buying philosophies and merchandising math. The text's problem-based method of learning incorporates questions and problems that train the reader to think like a buyer and encourage group collaboration and critical thinking. Simulated exercises mimic real-life buying responsibilities. Additionally, the order of the chapters and content within each chapter mimic the training of an assistant buyer in a corporate buying office. Providing a full, broad view of the retail buyer's role, the text also includes the key merchandising math formulae that is the basis of all retail buying analysis.

Westmoreland Lewis Sorley, 2011-10-11 "A terrific book, lively and brisk . . . a must read for anyone who tries to understand the Vietnam War." —Thomas E. Ricks Is it possible that the riddle of America's military failure in Vietnam has a one-word, one-man answer? Until we understand Gen. William Westmoreland, we will never know what went wrong in the Vietnam War. An Eagle Scout at fifteen, First Captain of his West Point class, Westmoreland fought in two wars and became Superintendent at West Point. Then he was chosen to lead the war effort in Vietnam for four crucial years. He proved a disaster. Unable to think creatively about unconventional warfare, Westmoreland chose an unavailing strategy, stuck to it in the face of all opposition, and stood accused of fudging the results when it mattered most. In this definitive portrait, prize-winning military historian Lewis Sorley makes a plausible case that the war could have been won were it not for General Westmoreland. An authoritative study offering tragic lessons crucial for the future of American leadership, *Westmoreland* is essential reading. "Eye-opening and sometimes maddening, Sorley's *Westmoreland* is not to be missed." —John Prados, author of *Vietnam: The History of an Unwinnable War, 1945-1975*

Survey of Historic Costume Phyllis G. Tortora, Keith Eubank, 2009-06-08 In the Preface of the 5th Edition of *Survey of Historic Costume*, Tortora and Eubank conclude with the following: In the history of dress at the beginning of the 21st century, costume might be compared to a constantly moving river. This river divides into many narrower channels that separate, cross, come together, and separate again, and yet that river continually moves on. Building on the previous editions, the authors update their analysis of Western dress to 2008. *Survey of Historic Costume* has, from its beginnings, taken seriously the need to accompany the text with appropriate illustrations and the major change in the 5th Edition is the move to full color throughout the book to enrich the text and the concepts. Perfect for anyone interested in historic costume, fashion, textiles, drama, and design, this beautifully illustrated book is full of interesting facts and commentary. New to this Edition:-- Over 500 four-color photographs and illustrations-- Updated text to 2008-- Additional influences from one period or

civilization to another, including influences from other cultures-- Index - updated and organized to be utilized as glossary with terms defined and page numbers printed in boldface-- Instructor's Guide provides sources for visuals, websites, teaching strategies and evaluation techniques-- PowerPoint® Presentation contains interactive visual presentation with links to Internet

No Peace, No Honor Larry Berman, 2001-09-23 In this shocking exposé on the betrayal of South Vietnam, premier historian Larry Berman uses never-before-seen North Vietnamese documents to create a sweeping indictment against President Nixon and Henry Kissinger. On April 30, 1975, when U.S. helicopters pulled the last soldiers out of Saigon, the question lingered: Had American and Vietnamese lives been lost in vain? When the city fell shortly thereafter, the answer was clearly yes. The Agreement on Ending the War and Restoring Peace in Vietnam—signed by Henry Kissinger in 1973, and hailed as peace with honor by President Nixon—was a travesty. In *No Peace, No Honor*, Larry Berman reveals the long-hidden truth in secret documents concerning U.S. negotiations that Kissinger had sealed—negotiations that led to his sharing the Nobel Peace Prize. Based on newly declassified information and a complete North Vietnamese transcription of the talks, Berman offers the real story for the first time, proving that there is only one word for Nixon and Kissinger's actions toward the United States' former ally, and the tens of thousands of soldiers who fought and died: betrayal.

Fashion Logistics John Fernie,David B. Grant,2015-11-03 Fashion Logistics examines the principles and practices behind responsible fashion retailing and cost-effective supply chain management in the fashion industry. Fashion Logistics assesses the early growth and changes in the industry as well as the drivers of change in the market. Important forces are driving tremendous changes in the retail industry, particularly in supply chain networks and operations. Manufacturers therefore need to re-think their supply chains so that they are resilient enough to withstand shocks, agile enough to respond quickly to sudden change, flexible enough to customise products, and efficient enough to protect margins. John Fernie and David Grant assess these forces and changes, and how manufacturers should adapt their working practices accordingly. Fashion Logistics integrates case studies of best practice that demonstrate successful fashion retail supply chains of leading

companies such as Benetton, Burberry, Schuh and M&S. The book provides vital figures, tables and mini-cases in each chapter, along with a discussion question at the end of each mini-case, references and suggested readings.

CP Retail Buying Richard Clodfelter, 2013

Reshaping Retail Stefan Niemeier, Andrea Zocchi, Marco Catena, 2013-06-06 The modern retail system has worked to dazzling effect. From the 19th century, store owners emerged from small beginnings to set in train an industry that has seen some operators become nationally, even globally, dominant. Along the way, they turned retailing into an art, and then a science. Now retailers in emerging markets appear to be repeating the story all over again, except on a scale and at a speed beyond anything we have seen before. Given all of this, it can be hard for those who work in retailing to accept that the industry as we know it is living on borrowed time, on the brink of transformation. There is now an urgency with which conventional store-based retailers must now act and the extent of the challenges this change represents in strategic,

organizational, and above all, technological terms. Reshaping Retail sets out the driving causes, current trends and consequences of a transformation in retail triggered by technology. The changes go far beyond making items available for sale on the internet. Starting by briefly setting the historical and business system contexts for retail and describe the role that technology has played in the creation of modern retail it then explains the underlying technological drivers behind the current revolution – radical changes in the capacity of both hardware and software, mobile telecommunications changes and the advances of the Internet. Ultimately, success will hinge on more than competence; it will come down to a way of thinking. Customer-centricity will need to be valued not just by the store owner, as in the past, but also by all employees in the organization. It will need to become embedded in their daily tasks. The same applies to technology, which must be at the center of the organization and recognized as such by everyone. With a combination of extensive desk and field research, interviews with leading retailers and technologists, together with the real world experience of practitioners in this area, Reshaping Retail will inspire and help store retailers to make the necessary transformation now to win in the new consumer driven world.

Beyond Design Sandra Keiser, Myrna B. Garner, Deborah Vandermar, 2017-08-10 This informative, full-color text takes students step-by-step through the decision-making involved in the pre-production processes of apparel product development--planning, forecasting, fabricating, line development, technical design, pricing, sourcing, and distribution. It demonstrates how these processes must be coordinated to get the right product to market, when consumers want it, and at a price they are willing to pay. The 4th Edition has been edited around a new metastructure to maximize student learning. It continues to build on the themes of sustainability, business ethics, and the impact of fast fashion and social media while seeking to

address opportunities for both large and small companies, and entrepreneurs. The text advances its discussion of how new technologies continue to shorten the product development calendar. Chapters have been updated to include current examples, updated charts and graphs, and more case studies. There are updated references to contemporary developments with examples relevant to today's student. New to this Edition ♦ Includes international examples and case studies that address the effects of globalization ♦ Advances the discussion of the pros and cons of fast fashion vs. slow fashion ♦ Revised, easier-to-read charts and graphs and 30% new color photographs ♦ Thoroughly revised Chapters 12 (Sourcing) and 13 (Costing and Pricing) updated with most recent info on trade laws, changes in sourcing criteria and wages in international sourcing countries Beyond Design STUDIO ♦ Study smarter with self-quizzes featuring scored results and personalized study tips ♦ Review concepts with flashcards of essential vocabulary ♦ Watch videos that bring chapter concepts to life PLEASE NOTE: Purchasing or renting this ISBN does not include access to the STUDIO resources that accompany this text. The Limits of Air Power Mark Clodfelter, 2006-01-01 Tracing the use of air power in World War II and the Korean War, Mark Clodfelter explains how U. S. Air Force doctrine evolved through the American experience in these conventional wars only to be thwarted in the context of a limited guerrilla struggle in Vietnam. Although a faith in bombing's sheer destructive power led air commanders to believe that extensive air assaults could win the war at any time, the Vietnam experience instead showed how even intense aerial attacks may not achieve military or political objectives in a limited war. Based on findings from previously classified documents in presidential libraries and air force archives as well as on interviews with civilian and military decision makers, *The Limits of Air Power* argues that reliance on air campaigns as a primary instrument of warfare could not have produced lasting victory in Vietnam. This Bison Books edition includes a new chapter that provides a framework for evaluating air power effectiveness in future conflicts.
