**Aesthetic Labour** Ana Sofia Elias, Rosalind Gill, Christina Scharff, 2017-01-18 This volume approaches questions about gender and the politics of appearance from a new perspective by developing the notion of aesthetic labour. Bringing together feminist writing regarding the 'beauty myth' with recent scholarship about new forms of work, the book suggests that in this moment of ubiquitous photography, social media, and 360 degree surveillance, women are increasingly required to be 'aesthetic entrepreneurs', maintaining a constant state of vigilance about their appearance. The collection shows that this work is not just on the surface of bodies, but requires a transformation of subjectivity itself, characterised by notions of

personal choice, risk-taking, self-management, and individual responsibility. The book includes analyses of online media, beauty service work, female genital cosmetic surgery, academic fashion, self-help literature and the seduction community, from a range of countries. Discussing beauty politics, postfeminism, neoliberalism, labour and subjectivity, the book will be of interest to scholars and students with an interest in Gender, Media Studies, Cultural Studies, Sociology, Social Psychology and Management Studies. "This highly engaging, smart, and wide-ranging collection analyzes how, under the self-governing mandates of neoliberalism, the demands that girls and women regulate and control their bodies and appearance have escalated to new, unforgiving levels. A special strength of the book is its emphasis on the rise of 'aesthetic labour' as a global, transnational and ever-colonizing phenomenon that seeks to sweep up women of all races, ages and locales into its disciplinary grip. Highly recommended." -Susan J Douglas, University of Michigan, USA the inherited responsibility that remains women's particular burden to manage." -Melissa Gregg, Intel Corporation, USA "This book incisively conceptualizes how neo-liberalist and postfeminist tendencies are ramping up pressures for glamour, aesthetic, fashion, and body work in the general public. In a moment when YouTube 'makeup how to' videos receive millions of hits; what to wear and how to wear it blogs clock massive followings; and staying 'on brand' is sold to us as the key to personal and financial success, 'aesthetic entrepreneurship' is bound to become a go-to concept for anyone seeking to understand the profound shifts shaping labor and life in the 21st century." -Elizabeth Wissinger, City University of New York, USA

**Reader in Tragedy** Marcus Nevitt, Tanya Pollard, 2019-02-07 This unique anthology presents the important historical essays on tragedy, ranging from antiquity to the present, divided into historical periods and arranged chronologically. Across its span, it traces the development of theories and philosophies of tragedy, enabling readers to consider the ways in which different varieties of environmentalist, feminist, leftist and postcolonial thought have transformed the status of tragedy, and the idea of the tragic, for recent generations of artists, critics and thinkers. Students of literature and theatre will find this collection an invaluable and accessible guide to writing from Plato and Aristotle through to Freud, Nietzsche, Schopenhauer and 21st century theorists. Ideas of tragedy and the tragic have been central to the understanding of culture for the past two millennia. Writers and thinkers from Plato through to Martha Nussbaum have analyzed the genre of tragedy to probe the most fundamental of questions about ethics, pleasure and responsibility in the world. Does tragedy demand that we enjoy witnessing the pain of others? Does it suggest that suffering is inevitable? Is human sexuality tragic? Is tragedy even possible in a world of rolling news on a digitally connected planet, where atrocity and trauma from around the globe are matters of daily information? In order to illustrate the different ways that writers have approached the answers to such questions, this

Reader collects together a comprehensive selection of canonical writings on tragedy from antiquity to the present day arranged in six sections, each featuring an introduction providing concise and informed historical and theoretical frameworks for the texts.

It's Arts Play Judith Dinham,Beryl Chalk,2018-01-30 It's Arts Play: Belonging, Being and Becoming through the Arts introduces undergraduate students to Arts education for Early Childhood (birth to 8 years) via the Early Years Learning Framework (EYLF), which offers a holistic concept of children's learning, framed around the themes of Belonging, Being and Becoming. The text covers all five subjects identified as part of The Arts in the Australian Curriculum (dance, drama, media arts, music and visual arts). While the integral importance of the arts in early childhood is generally accepted, the nature of authentic arts education practice in this sphere is not well understood. This text offers well-focused, comprehensive and sound practical guidance for students. It promotes a play-based approach, and emphasises learning through the Arts and engagement in the Arts as congruent with the developmental model of children's learning, as characterised by the EYLF. A distinctive feature of this text is the incorporation of authentic Indigenous Perspectives embedded throughout.

National infrastructure plan 2011 Great Britain: H.M. Treasury,Infrastructure UK,2011-11-29 This National Infrastructure Plan sets out the strategy for meeting the infrastructure needs of the UK economy. There are three elements to this strategy. First, the Government will plan for the medium term and across sectors. The Plan brings together a comprehensive cross-sectoral analysis of the UK's infrastructure networks and sets out a clear pipeline of over 500 infrastructure projects. Delivering these projects will ensure that the overall performance of the UK's infrastructure is maintained and improved over time. Second, to mobilise the finance required to deliver these projects, the Plan sets out a new approach to coordinating public and private investment in UK infrastructure. Funded through further reductions in current spending, additional investment in infrastructure is being announced. The Government will act to facilitate the private investment that will finance the majority of the UK's infrastructure. This includes bringing in new investors into UK infrastructure; introducing new sources of revenue such as tolling; allowing local authorities more flexibility in the way they use local receipts to fund major infrastructure in specific circumstances; and being willing to consider guarantees against specific risks that the market cannot bear. Third, the Government will take an active role in ensuring the infrastructure in the Plan is delivered efficiently and on time, with priority given to those projects most critical for economic growth. The Government is also reforming the planning and consenting systems to tackle these sources of cost and delay in infrastructure delivery.
